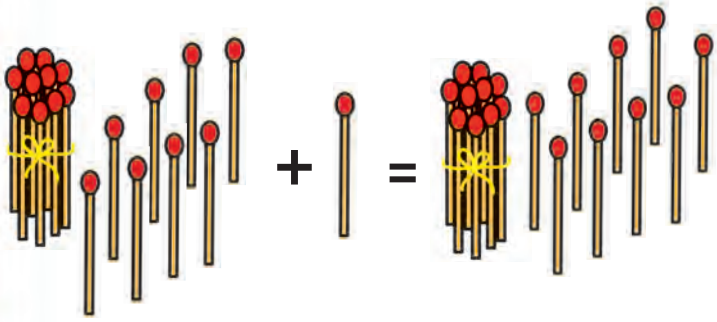
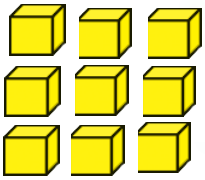
Eighteen and one make nineteen



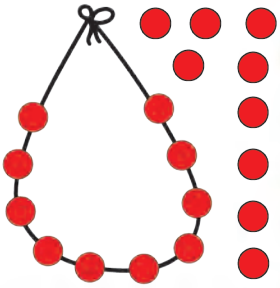
19

Nineteen

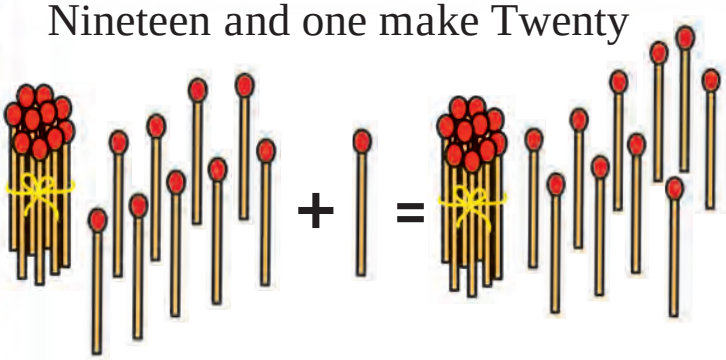


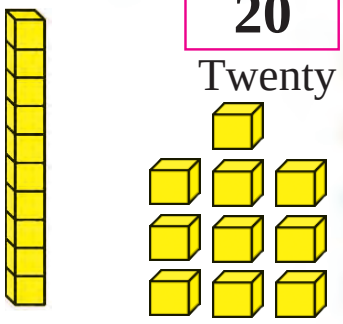
One Ten Nine Units

19	19	19	19	19	19



Nineteen and one make Twenty





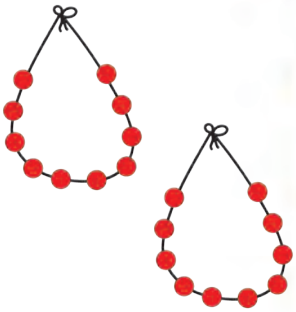
20

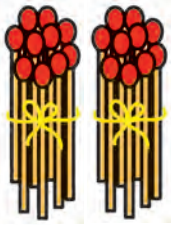
Twenty

One Ten Ten Units

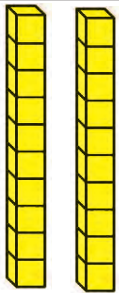
There is no digit bigger that 9. So, if there are 10 units, we tie them in a bundle. Keep that bundle in ten's house on the left.
Now, there are two bundles of ten and nothing is left in unit's house, so we write zero there.

20	20	20	20	20	20





2 Tens **0** Units



2 Tens **0** Units

Eleven Twelve	arrange, books on shelves
Thirteen Fourteen	put garbage in the bin
Fifteen Sixteen	Keep your room clean
Seventeen Eighteen	See, plants are green
Nineteen Twenty	Flowers are in plenty !

Instructions for teachers

Teachers can use this song to make children learn numbers from 11 to 20. If children know the sequence, counting will be easy for them.
