PREFACE

Dear students,

A hearty welcome to you all in standard XI! It is indeed a very special beginning for you who are now on the threshold of selecting your careers. We are happy to place this textbook *Aventuras - a Spanish textbook for standard XI* in your hands.

Language education is an integral aspect of a student's overall development. It is a way for students to understand the mindset and the beliefs of people that belong to places and cultures other than their own. Students today have access to a range of opportunities in every field all over the world. For students who wish to pursue their career internationally, the knowledge of foreign languages is very important.

Spanish is one of the most important languages in the world, given that it has over 577 million speakers, corresponding to 7.6% of the world's population. Even on the internet, Spanish is the third-most spoken language. Learning Spanish would be the key to understanding one of the world's richest collections of music, art, cinema, literature and much more. Whether it be enjoying Oscar-winning art films or deciphering classics such as *Don Quixote* or *Hundred Years of Solitude*, the Spanish language boasts of more works of art and literature than most other languages.

A huge part of speaking a foreign tongue is also gaining an insight and an understanding of the culture that the language comes from. It helps the students surpass the boundaries of perception placed on them by their own culture and lets them see the world from the perspective of others. Learning a foreign language and culture gives way to the discovery of surprising similarities between another country's culture and your own, showing that humans, no matter where in the world they may live, are not so different after all.

Useful supplementary teaching and learning material will be available through the Q.R. code and through the medium of the app for additional information. It will be definitely useful for your studies.

We will be happy if you share your feelings about the contents of this book with us. We hope you enjoy studying it throughout the year. We eagerly look forward for your enthusiastic participation.

Happy learning and wish you all the best in your studies!

TEACHER'S PAGE

The book seeks to base itself on the communicative method of language learning, which prioritizes the act of communication above all else. In order to maximize the students' exposure to the language, this book uses a near-complete immersive method, meaning that the book is almost entirely written in Spanish. Concessions have been made to provide some grammar explanations in English in order to facilitate the clear understanding of these concepts. The structure of the book emphasizes the absorption and production in the language, rather than focusing on the memorization of vocabulary lists.

In order to meet the needs of the students, this book boasts of a variety of texts and dialogues in everyday, familiar situations. Grammar and vocabulary exercises have been provided to ensure that the students absorb and are able to produce language of a good quality. The chapters are thematically arranged, with the content in each chapter focussing on a central theme such as family, shopping, food, etc. Cultural briefs that are related to this topic are provided at the end of each chapter. To reinforce and fix the structures learnt in every chapter, there is a special section for *Más ejercicios* given at the end of the book, divided according to the content of each chapter. Every effort has been taken to ensure that the book is appealing not only in terms of content, but also in terms of aesthetics.

The name of the book, *Aventuras*, means adventures in Spanish. Each chapter, therefore, will be an adventure for the student delving into that theme. It is hoped that the book proves to be an educational and fun adventure for all.
