

## **The Donkey**

- rocketed : moved suddenly
- **staggered :** tottered, moved unsteadily
- **gambol**: leap, move playfully

I saw a donkey one day old. His head was too big for his neck to hold; His legs were shaky and long and loose, They rocketed and staggered and weren't much use.

He tried to gambol and frisk a bit, but he wasn't quite sure of the trick of it. His queer little coat was soft and grey and curled at his neck in a lovely way.

His face was wistful and left no doubt that he felt life needed some thinking about. So he blundered round in venturesome quest, and then lay flat on the ground to rest.

He looked so little and weak and slim, I prayed the world might be good to him.
