#### **Preface**

The Right of Children to Free and Compulsory Education Act, 2009 and National Curriculum Framework 2005 are two important events that have influenced primary education in our country. In the State of Maharashtra, too, the revised curriculum Primary Education Curriculum 2012 reflects their guidelines and expectations. We are happy to place this My English Book Six based on the revised curriculum in your hands.

The RTE Act emphasizes all-round development of the child, as also learning through activities, discovery and exploration in a child-friendly and child-centred manner; making the child free of fear, trauma and anxiety and helping the child to express views freely. We have tried to design our textbooks so that these principles become an integral part of the teaching-learning process. For the convenience of teachers and parents, we have also specified the various competencies that should be developed by the end of Std VI.

My English Book Six is meant for use in non-English medium schools. We have taken into account the environment in which the children are placed and which requires a knowledge of English. The textbook aims at giving children a systematic exposure to the language, and helping them to learn English joyfully through graded and engaging activities.

The textbook has been prepared in a big size with plenty of colourful illustrations to enhance its visual appeal for children. The illustrations are not just decorative, they are designed to make the process of learning English more meaningful. We hope that children will enjoy handling this textbook throughout the year.

This book was scrutinized by teachers and experts from various parts of the State to make it flawless and more useful. The English Language Committee, Study Group and the artist have taken great pains to prepare this textbook. The Bureau is grateful to all of them.

We hope that the textbook will receive a warm welcome from students, parents and teachers.

#### For Teachers ...

- 1. Please take into account the various competencies specified on the page alongside. They indicate the areas of language developments and the stages which a child is expected to reach by the end of Std VI. You can plan your classroom interaction and assessment of pupils in the light of these specific goals.
- 2. Use the textbook in three ways
  - **2.1 Learning language:** Learning to communicate one's own ideas, thoughts, feelings, etc. in English.
  - **2.2 Learning through language:** Using English to seek knowledge in other areas of study like science, geography, environmental studies and even art and craft; learning to properly organize and present the information or knowledge one gets through English; learning to identify the difficulties in one's understanding and then to make efforts to overcome them; 'personalise' learning by making notes for reference and so on. Many activities in the textbook focus on these 'study skills'. They will enable the students to use English throughout their life as an effective medium of learning.
  - **2.3 Learning about language:** After getting acquainted with the English language for about five years (from the early age of six), children may now be ready to consciously observe how the language works. The 'Learning about Language' boxes in the book include some activities, some observations and acquaint the students with a few grammatical terms. The boxes only aim at building an awareness of the language system. Such awareness will help them to rectify their own errors and to refine their own expression. The teacher should not use the content of these boxes for mechanical drilling or for closed book assessment.
- **3.** Please go through the entire book before you start teaching it. Also, because the activities and games are graded in order of difficulty, do use them in the given order. However, once an activity or game is introduced, feel free to use it again from time to time, according to the needs and interests of your class.
- **4.** Open book assessment which is more suitable for a constructivist approach to education has been suggested on pages 52 and 53. Do use this strategy for formative as well as summative evaluation.
- **5.** Many of the games and activities in the book involve open-ended questions. Please give the children enough time and opportunity to respond to these using their own ideas. Do not use readymade (or 'teacher made') answers.
- **6.** 'Tara and her friends' appear throughout the book. They add an element of fun and also show how children may respond while playing language games, while taking part in activities, etc. Children may also enjoy using their dialogues for role-play.
- **7.** Watch over the classroom participation and development of each child in the classroom and provide opportunities of growth to all of them.
- **8.** An innovative teacher may come up with many parallel or extension activities but do take care to see that all tasks and activities given in the textbook are carried out first.

#### 1.3 The Wild Boar and the Fox

One day, a wild boar was sharpening his tusks against the bark of a tree. He was doing it very carefully. There lived a fox in the same forest. He was always looking for a chance to make fun of other animals in the forest. When he saw the wild boar, he decided to tease him. He began to walk around the trees, looking left and right and up and down. He also began to act as if he was really scared. But the boar did not pay any attention to him. He kept right on with his work.

At last, the fox said with a grin, "Why are you doing that? I tried very hard, but I did not see any hidden enemy or danger."

"True," replied the boar. "Just now there may not be any danger. But when it really comes, there won't be any time to sharpen my tusks. My weapons have to be ready for use then. If I am not ready, I will have to suffer!"

This story tells us that it is best to be prepared. Don't leave things to be done at the last minute.

help Ronak with the word 'edge'?

**Ishan**: Let me guess. Is it the border or the line where one thing

stops and another begins?

**Grandpa**: You are right. Now, the jackal was very clever. He tried

to play a trick on his friend camel, who was happily

munching away...

**Radhika**: Grandpa, could you please repeat the last phrase?

Grandpa: Happily munching away. The camel was happily and

slowly eating or munching away his food.

Vidya : Pardon, Grandpa, I didn't get the last words. Could you

repeat those?

**Grandpa**: A sugarcane treat.

Vidya: Sorry, Grandpa, but I did not understand the phrase

'a sugarcane treat'.

wanted the camel to go with him to the sugarcane field.

**Akshay**: Can I explain further? The jackal and the camel were

going to eat and enjoy the sugarcane from the farmer's

field

Radhika: Why, everyone will enjoy a sugarcane treat!

**Grandpa**: Yes, you have understood the meaning of treat.

Gauri : Please continue, Grandpa, let's listen to the story. But

#### **Grandpa's Story**

#### Tit for Tat

Once upon a time, a camel and a jackal lived by a river, near the water's edge. And on the other side of the river, there was a village with fields and farms.

The jackal was very clever. He tried to play a trick on his friend, the camel, who was happily munching away his food. The jackal began to tempt him to go for a sugarcane treat in a farmer's field. At first, the camel hesitated but in the end he agreed to go with the jackal to raid the sugarcane field.

The jackal sat on the camel's back and the two friends crossed the river. They ate their fill in the sugarcane field. Suddenly, the jackal began to howl. "Sssh!" said the camel. "You will wake the farmer." But the jackal went on howling. Sure enough, the farmer and his helpers came running to the field. The naughty jackal slipped away but the poor camel could not do so. The farmer beat him up and drove him away.

The jackal was waiting for the camel at the riverside. He said, "Sorry brother. But I am in the habit of singing after a good dinner. I hope you didn't mind it much."

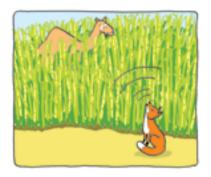

The camel didn't say anything. He let the jackal sit on his back and entered the river. Near the middle of the river, the water was very deep. There the camel began to take a dip in the river. The jackal was frightened. "What are you doing, you silly fellow! Are you trying to drown me?"

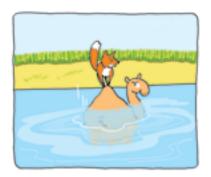

"No, brother," said the camel. "It's just that I am in the habit of taking a dip in the river, after a good meal. I hope you don't mind!"

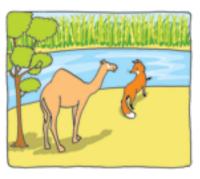

The naughty jackal learnt his lesson. He never troubled the camel again.

## 2.2 The Lion, the Man and the Statue

Long ago, men and animals could talk to each other. Once a man and a lion got talking. The lion was very proud of his strength. "I am the king of beasts. I am stronger than any man. That is why men fear me."

The man was also proud of his intelligence. "Don't forget that men are more intelligent than you are. That is why they can hunt you or capture you."

They both began to argue about who was greater. At last, the man took the lion to a statue in a big garden. It showed the great hero Hercules standing proudly with a dead lion at his feet.

"See, this statue proves that men are greater," claimed the man.

"Not at all!" the lion replied quickly. "This only shows that the statue was made by a man. If lions made statues, they would show the lion standing and the man lying dead under his paws."

From this story, we can see that the story depends on the storyteller. When someone else tells the same story they tell it from their point of view.

## 2.4 The Mouse Merchant

Once, a rich merchant was scolding his lazy son. "I gave you so much money to start a business and yet you have not earned anything. You are good for nothing! Look at this dead mouse. A capable man can start a business even with something as useless as this!"

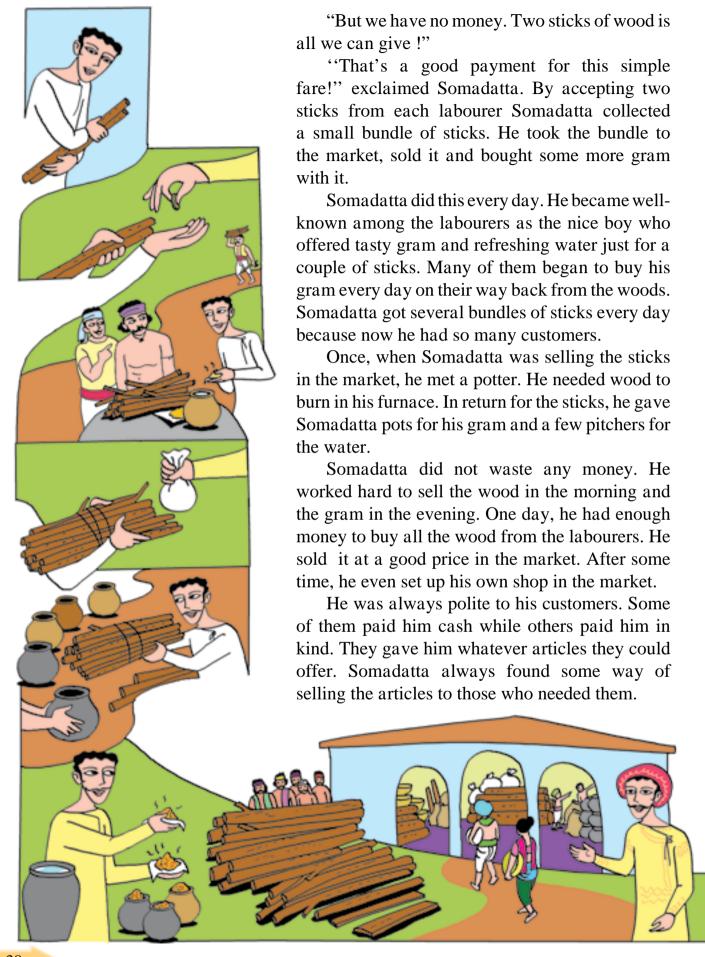

Somadatta who was a poor orphan boy heard his words. He went in and requested the merchant, "Please lend me this mouse as a capital and I will try my luck."

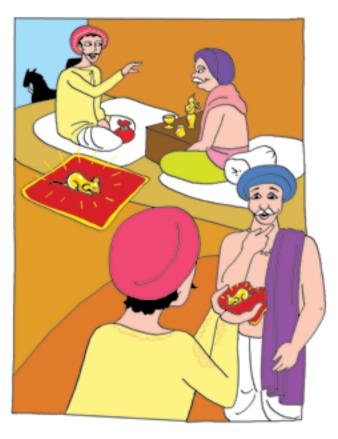

The merchant burst out laughing. But still, he gave the mouse to Somadatta and took the receipt that Somadatta wrote out to him.

Somadatta was walking down the street with the dead mouse in his hand, when another shopkeeper called him. "Come here, boy. I need the mouse to feed my cat. I will give you two handfuls of gram for it." Somadatta accepted the gram.

At home, Somadatta roasted the gram well. Then he took a pitcher of water and stood at the crossroads with his gram and the water. He waited for a long time.

In the evening, when the labourers were returning from the wood, they saw the boy with roast gram and water. Somadatta offered them the gram and water politely.

After a few years, Somadatta became a wealthy merchant in the town. One day, he asked the goldsmith to make him a small golden mouse. He took the mouse to the rich merchant.

"I had borrowed a dead mouse from you as capital many years ago. Today I have come to return it. Please accept this golden mouse."

The rich merchant was greatly surprised. He was so impressed with Somadatta's business skills that he gave him his own daughter in marriage. Thus Somdatta who was a poor orphan boy earned money and respect due to his intelligence, hard work and politeness.

It is not known whether the rich man's son learnt any of the skills from Somadatta.
