The Clever Turtle

Once, some villagers caught a turtle in the field and took him to their chief. "You must punish this thief!" they said.

"Oh, no!" said the turtle. "Please don't throw me back in the river. You may hang me, whip me, burn me, or push me from a cliff. But

please, please, whatever you do, don't throw me back in the river!"

"Throw him back in the river!" The chief ordered. The villagers threw the turtle in the river. The turtle laughed and laughed away merrily.

Unit Four 53

One day, the minister called the blacksmith.

The next day, when the minister went to bed,

"I order you to shift your house somewhere else." Then he called the carpenter and gave him the same order.

After a few days, the blacksmith went to the minister. "I'm moving my house tomorrow," he told the minister. The minister was happy. He said, "That's very kind of you. You are such a good man. Please stay for lunch today."

Then the carpenter came, "I'm also moving my house tomorrow," he told the minister. The minister was overjoyed. "Oh, no! You are too kind! Please stay for lunch today."

The minister offered his neighbours many tasty dishes, sweets and fruits. Then he said goodbye to them. he thought, 'Ah! At last I will have some peace. Tomorrow when I get up, I will listen to the sweet sounds of birds. How nice it will be!'

But the next morning, the minister woke up with the sound of tong, tong, tong, tock, tock, tock, krrr, krrr, krrr again. He got annoyed. He called his servants. "Go and see who is making all that noise!"

After some time, the servants came back. They had some news for the minister. The carpenter and the blacksmith had moved their houses – the blacksmith had moved to the carpenter's house and the carpenter had moved to the blacksmith's house!

The blacksmith and the carpenter carried on their work in their houses day and night!

Hello.

I am going to show you how this balloon sticks to the wall without glue.

See, first I rub it on my head. Then I stick it to the wall.

Isn't it fun to watch?

There is no trick in this.

This happens due to electricity.

Namaste.

I want to show you a simple musical instrument.

These are all glass bowls.

Each bowl has some water in it.

This bowl is full of water.

This last bowl has very little water in it.

Each bowl has more water than the bowl on the left.

Now I'll tap each bowl gently with this spoon.

Did you hear that?

What a musical sound!

Do you want to try it?

Please be careful.

Thank you!

Good morning!

I'm going to present an experiment.

You will love to watch this.

This bottle holds some vinegar.

This balloon holds a spoonful of baking soda.

Now I will fit the balloon

on the mouth of the bottle, like this.

Now I will lift the balloon.

Then the soda will fall in the bottle.

and then just watch!

The balloon blows up!

When you mix soda and vinegar,

a gas known as carbon dioxide forms.

The balloon blows up because of the gas.

Thank you for watching my experiment.

I am going to show you something that looks like magic. But it's not magic. It is science.

This is a magnet. It attracts towards itself, everything that is made of iron.

Just watch.

It draws the clips through air.
I'll put the clips in a glass bowl.
It draws the clips through glass.
I'll pour some water in the bowl.
It draws the clips through water
and through glass.

Do you want to try it? Try it with paper. Thank you.
