

Fun with Line

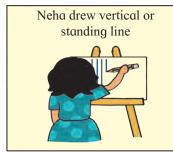

* If we hold a thread in our two hands and stretch it tight, we get a straight line. If we let it hang loose we get a curved line. (See how we get a straight line if we tie a stone to one end of a thread and let it hang.)

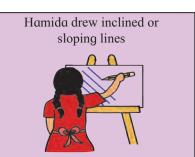

In this book we shall be learning about the straight line. So when we say 'line' we mean 'straight line'.

* Activity: Fold a paper and show vertical, horizontal and inclined line.

* Draw lines like the ones shown below.

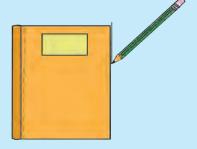

* I use a box to help me draw a line.

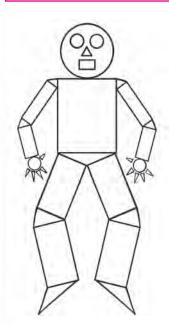

* I used a ruler to draw a line.

* I drew a line just by hand, without the help of any device.

Identify the shapes and colour them

| Identify the shapes like \triangle , \bigcirc and \bigcirc , |
|--|
| in the picture alongside. Colour \bigwedge red, |
| yellow and the blue. |

See that the children carry out the above activities in their nootebooks.
